## Consultative Notices

### Education Committee

#### REVIEW OF HIGHER DEGREES

Education Committee will conduct a review of the University's provision of higher degrees (Doctor of Divinity (DD), Doctor of Civil Law (DCL), Doctor of Letters (DLitt), Doctor of Science (DSc), Doctor of Music (DMus) and Doctor of Medicine (DM)). This review will take place on 26 January 2016.

The review panel's terms of reference are:

**1** To consider whether the University should continue to offer higher degrees, having regard to:

(a) purpose: whether the offering of these awards is important for the University's academic strategy, or uniquely meets any other need;

(b) practice across the sector: whether universities continue to provide higher degrees solely to recognise the achievement of their own alumni, or whether the practice has been largely abandoned;

(c) value for the individual: whether the value of the award to the individual has changed over time, given the universality of the doctorate as a qualification for academia, and the widespread award of professorial titles.

**2** To consider on what terms the University should continue to offer higher degrees, in particular:

(a) the qualifications of a person eligible to be considered

(b) the criteria for their award

(c) the relationship between higher degrees and research degrees

(d) whether all or only some subject areas might offer higher degrees

(e) the role and duties of judges, the process for their appointment and the responsibility for final decisions

(f) the best management of the awards, given their infrequency but highly individual requirements

(g) communication with candidates

(h) regulations for the degrees especially to clarify: ownership and oversight; the role of the Proctors; provision for an appeals process.

**3** To make recommendations to Education Committee, in the light of 1 and 2, as to whether the University should continue to offer higher degrees and the terms and scope of any continuation of provision, or the timing of any discontinuation of provision, having regard to the implications for both the wider University and individual candidates (including any possible implications for the award and standing of honorary doctorates should the substantive degrees be abolished).

The review panel would welcome written comments on matters falling within its terms of reference, given above. These should be sent to the joint secretary to the review panel, Rachel Dearlove, Education Policy Support (email: [rachel.dearlove@admin.ox.ac.uk](mailto:rachel.dearlove@admin.ox.ac.uk)), by **13 November**.

### Mathematical, Physical and Life Sciences Division/Education Committee

#### REVIEW OF THE MATHEMATICAL INSTITUTE

The Mathematical, Physical and Life Sciences Divisional Board is undertaking a review of the Mathematical Institute with the Education Committee as part of Council's programme of rolling reviews of departments. The review will be chaired by the Head of Division, Professor Donal Bradley, and will take place on 7 and 8 March 2016.

The Review Committee would welcome written comments on matters falling within its terms of reference given below. These should be sent to the joint secretary to the Review Committee, Lou Sumner (email: [louise.sumner@mpls.ox.ac.uk](mailto:louise.sumner@mpls.ox.ac.uk)), by **6 January 2016**.

The terms of reference of the review are:

**1** To review the quality of academic activities in the department, by reference to:

- international standards of excellence
- action taken since the last review of the department
- planning statements at departmental and divisional levels, and in the context of the University's mission statement and strategic/corporate plan.

In particular:

(a) the quality of the research of the department, including its participation in interdepartmental, interdivisional and interdisciplinary activities, its research profile and strategy, and future challenges and opportunities;

(b) the quality of undergraduate and graduate programmes, and their delivery and related issues, including:

- access and admissions
- curriculum design and programme structure
- teaching, learning and assessment
- the relationship between teaching and research
- academic and pastoral support and guidance
- the provision and use of learning resources (including staff resources)
- specific arrangements for the pursuit of graduate studies
- relationships with colleges
- quality assurance mechanisms;

(c) the organisation of the department, the management structures, and the relationship between the department and the Mathematical, Physical and Life Sciences Division, including such matters as:

- strategic planning (including relationship to the divisional five-year plan and the University's strategic/corporate plan)
- academic and non-academic staffing and recruitment
- student number planning
- terms of appointment for academic staff, including career development and equal opportunities issues
- fundraising;

(d) the relationship (structural and operational) between units within the department, and between the department and cognate subject areas, and colleges to which it is linked in teaching and research.

**2** To consider the current and long-term financial position of, and funding arrangements for, the department, and its financial strategy.
