Experiences of multiple conditions. As part of a National Institute for Health Research project, we are looking to interview (either in person or by telephone) both patients and GPs across the country about their experiences of managing multiple conditions, and to seek their thoughts on what might help them to manage these conditions better. We are interested in speaking to patients with at least two of the following conditions: asthma, COPD, diabetes, epilepsy, heart failure and stroke. We would also like to speak to GPs about the issues they face with patients with these conditions, and what they feel could be changed to improve clinical management and patient outcomes.
