**Approved:** 11\(^{th}\) July 2013

**Title of Examination:** Honour School of Experimental Psychology

**Brief note about nature of change:** Clarification of the regulations for entry into Part II of the Honour School; updating references to papers which may be taken from other Honour Schools.

**Effective date:** With effect from 1 October 2013

**Location of change:** *Examination Regulations 2012*

**Details of change:**

1. In *Examination Regulations*, 2012, p. 246, ll. 24-26, delete ‘as prescribed for candidates offering Psychology in the Honour School of Psychology and Philosophy’ and substitute ‘for this School’

2. Ibid., p. 247, l. 48, delete ‘Physiological Sciences’ and substitute ‘Medical Sciences’

**Explanatory Notes**

1. This amendment simplifies the regulation that stipulates the pre-requisites for entry into Part II of the Honour School of Experimental Psychology.

2. The Honour School of Physiological Sciences is being phased out and candidates in the Honour School of Experimental Psychology can only take papers from other schools in their third year (Part II), which means that these candidates take papers from the Medical Sciences Honour School rather than that for Physiological Sciences.
