**Brief note about nature of change:** the changes are to enable candidates in the Honour School of Engineering Science to exit after three years with a classified honours degree. It is intended that there will be a 2.ii hurdle for candidates to progress to the fourth year and enter for the Part C examination in Engineering Science.

**Effective date**

For candidates entering the Honour School of Engineering Science in or after October 2012, for first Part A examination in 2013, first Part B examination in 2014, and first Part C examination in 2015.

**Location of change**

In *Examination Regulations 2011*.

**Detail of change**

1. p. 214, delete ll.3-5, and substitute:

   "For candidates embarking on the Honour School in October 2009, October 2010, and October 2011."

2. p 215, after l. 14 insert:

   "For candidates embarking on the Honour School in or after October 2012, taking Part A in or after 2013, taking Part B in or after 2014, and taking Part C in or after 2015.

   A

1. No candidate shall be admitted to the examination in this school unless he or she has either passed or been exempted from the First Public Examination.

2. The subject of the examination shall be Engineering Science.
3. The examination in this school shall be under the supervision of the Divisional Board of Mathematical, Physical and Life Sciences, which shall make regulations concerning it, subject always to the provisions of this subsection.

4. (a) The examination shall consist of three parts (A, B, C).

   (b) Parts A, B and C shall be taken at times not less than three, six and nine terms, respectively, after passing or being exempted from the First Public Examination.

   (c) Parts B and C shall be taken in consecutive years save where approval has been given by the Board for an intercalated year of study or industrial attachment between Parts B and C.

   (d) A candidate who obtains only a pass, or fails to satisfy the examiners, may enter again for Part B of the examination on one, but no more than one, subsequent occasion; Part A shall be entered on one occasion only. Part C shall be entered on one occasion only.

5. No candidate may present him or herself for examination in Part C unless he or she has been adjudged worthy of at least second class honours by the examiners in Parts A and B together at the first attempt.

6. (a) A candidate adjudged worthy of at least second class honours in Parts A and B together at the first attempt and worthy of Honours in Part C in Engineering Science may supplicate for the Degree of Master of Engineering in Engineering Science provided that the candidate has fulfilled all the conditions for admission to a degree of the University.

   (b) A candidate who passes Parts A and B together but fails to be adjudged worthy of at least second class honours in Parts A and B together, but who does not enter, or withdraws from, Part C, is permitted to supplicate for the Degree of Bachelor of Arts in Engineering Science (Pass, or Honours with the classification obtained in Parts A and B together, as appropriate); provided that no such candidate may later enter or re-enter the Part C year or supplicate for the degree of Master of Engineering in Engineering Science; and provided in each case that the candidate has fulfilled all the conditions for admission to a degree of the University.

   (c) The Examiners shall give due consideration to the performance in all parts of the respective examinations.

7. The name of a candidate shall not be published in a class list until he or she has completed all parts of the respective examination (Parts A, B, and C for the Master of Engineering in Engineering Science or Parts A and B for students exiting with a Bachelor of Arts in Engineering Science) in accordance with cl. 6 above."

**Explanatory Notes**

These regulations will enable candidates in the Honour School of Engineering Science to exit with a classified BA honours degree in Engineering Science. This might be by choice or in the event of a candidate failing to meet the 2.ii hurdle in Parts A and B together.
