#### *Candidate statement:*

The University is a diverse organisation that faces challenges from many directions. Our core activities are teaching and research. Maintaining excellence in these, despite the numerous other demands on our attention, is crucial to continuing success. Specifically I believe that success will come through supporting individuals and teams of colleagues to

have the freedom, time and resources they need to pursue world class research and innovative teaching. I have held positions both inside and beyond the university that I believe prepare me well for service on the Council. I was elected Chairman of Physics and led one of the largest departments in the University for five years. I have served on Research Councils, I have Chaired the Board of Directors of two international Observatories and for the last two years I have been President of the Royal Astronomical Society. Through these roles I have firsthand experience of priority setting with limited resources, and taking the lead in promoting academic research beyond the confines of academe. The University is fortunate in having access to resources from donors and OUP in addition to student fees, HEFCE and Research Council funding. Marshalling those resources to best serve researchers and scholars is the crucial role of Council and one I look forward to participating in.

**W Gillies McKenna**, BSc Edin, PhD MD  
Albert Einstein, Fellow of Wolfson, Faculty  
of Clinical Medicine

*Nominated by:*

*Sir John Bell*, Christ Church, Faculty of  
Clinical Medicine  
*A M Cooper-Sarkar*, St Hilda's, Faculty of

*P K Maini*, St John's, Faculty of  
Mathematics  
*K A Nasmyth*, Trinity, Faculty of  
Biochemistry  
*J A Noble*, St Hilda's, Faculty of

*P J Ratcliffe*, Magdalen, Faculty of Clinical  
Medicine  
*C J Schofield*, Hertford, Faculty of  
Chemistry  
*T P Softley*, Merton, Faculty of Chemistry  
*L Tarassenko*, St John's, Faculty of  
Engineering Science  
*H C Watkins*, Exeter, Faculty of Clinical  
Medicine

*Candidate statement:*

We live in difficult times, and it is essential that the Divisions find opportunities to work together. As your representative for both the Medical (MSD) and Mathematical, Physical and Life Sciences (MPLS) Divisions, my goal will be to ensure that we have a voice in support of our activities in the highest levels of the University. There is much work to be done at the interfaces of our disciplines, and it is in such areas that we often train our students and postdoctoral fellows. I have demonstrated ability to work with both the MSD and MPLS Divisions in numerous areas linking with external funding partners and Research Councils. The Oxford Cancer Imaging Centre of which I am Principal Investigator has brought in millions of pounds of research support, and brings together researchers from Chemistry, Mathematics and Engineering with many researchers across the MSD and NHS Trust. I ensured that 40% of the funds raised for the Imaging Centre went to support trainees, the vast majority of them working across Divisions. The Particle Therapy Cancer Research Institute, which I helped found, brings together researchers in the MSD with Physics and Computing from MPLS. Foundations that we build in hard times will allow us to build mighty edifices for teaching and research when times improve. The interests of MSD and MPLS are so closely entwined that it is essential that we be effectively represented on Council. I would be honoured to take on this role with your support.

### Dyslexia Research Study

**I'm looking for participants with dyslexia** to take part in a short research study. It consists of taking a high dose of omega-3 supplements for 28 days. The purpose of the study is to compare the effects of an omega-3 supplemented diet compared to a normal diet on a series of computer and paper-based tests, which take no longer than 2 hours in total (one hour at the start of the month, one hour at the end). There is evidence to suggest that omega-3 is deficient in people with dyslexia, and there is emerging evidence that supplementing with omega-3 can help to improve deficits in dyslexia. You will be reimbursed for your time (around £10). For more information please email me at [rachel.hulatt@oriel.ox.ac.uk](mailto:rachel.hulatt@oriel.ox.ac.uk).

### George Eastman Visiting Professor 2015–6

The University invites expressions of interest in the George Eastman Visiting Professorship in the academic year 2015–6 from citizens of the United States, in a branch of university study within the Medical Sciences or the Mathematical, Physical and Life Sciences. Like previous holders of this distinguished chair, the new visiting professor will be eminent in teaching and/or research.

Information about the constituent units of the Medical Sciences Division and the Mathematical, Physical and Life Sciences Division at Oxford may be found at [www.ox.ac.uk/divisions/index.html](http://www.ox.ac.uk/divisions/index.html).

The Visiting Professor is normally resident in Oxford for one academic year and is required to deliver 24 lectures or classes during that time. In parallel with holding the chair, the Professor will be elected to a Professorial Fellowship at Balliol College. Eastman House, the official residence of the Professor, is provided rent-free. A professorial stipend is payable for the year, and the University meets the reasonable cost of the Professor's return air fare from the United States.

Enquiries from prospective candidates should be addressed by email to [professorships@admin.ox.ac.uk](mailto:professorships@admin.ox.ac.uk). Candidates will be asked to seek nomination by another individual through one of the constituent units of the relevant Oxford division, and to supply a CV/list of publications and the names of three referees. The closing date for nominations is 1 October 2012.

Applications are particularly welcome from women and black and minority ethnic candidates, who are under-represented in academic posts in Oxford.
