Candidates are given the opportunity of applying to Oxford without having to name three colleges. A total of 827 candidates submitted completely open applications, whilst 2,664 named one college, and 2,262 named two colleges. The missing colleges were allocated by the Admissions Office computer which took into account the application patterns produced by the candidates who had named colleges. 108 of the 827 who submitted completely open applications gained places, which is an acceptance rate of 13.1 per cent. All colleges except one were allocated open application candidates; 6 were allocated fewer than 10, 15 were allocated more than 20 with one college receiving 112 allocated candidates and another 87.
