¹ Refers only to those students who have not gone onto Part C.

² In line with the policy agreed by the Educational Policy and Standards Committee in Trinity Term 2008, the proportion of students achieving a particular class in the M.Math and joint four-year courses in Mathematics is calculated as a weighted average of their marks in Parts A and B (50%) and Part C (50%). The same procedure is used for joint schools with Mathematics.

Table 2: Number and proportion of students achieving each class, by gender
