---

As in previous years, Council has agreed that tables showing student numbers should be published in the *Gazette*. The figures represent the position at the last day of Michaelmas Term 2005.

\* In this year's Supplement only those postgraduates recorded as still working for their degrees in Oxford during Michaelmas Term 2005 have been counted as in residence. All postgraduates whose status was suspended or whose thesis was under examination have been counted as out of residence together with those still working for their degrees outside Oxford. Information about the residential status of such students is uncertain and they are in any case wholly discounted for purposes of student load calculation. Comparative figures for 1986–7 have been adjusted accordingly.

For last year's supplement see *Gazette*, Vol. 135, pp. 1301–16.

*Note.* Due to the implementation of the new student system (OSS) in December 2005, the statistics for 2005–6 have been produced later than usual. The format and content of these statistics will be reviewed during the 2006–7 academic year, with the intention of publishing the statistics twice each year: early in Hilary Term (reflecting statistics as at 1 December) and a second publication (reflecting statistics at the end of the academic year).
