

Gazette Supplement

Student Numbers 2011

Introduction

Student statistics tables for 2011-12 are now available on the Academic Administration Division (AAD) website: www.admin.ox.ac.uk/ac-div/resources/statistics/student.

The statistics provide an overview of the student body based on a snapshot taken on 1 December 2011 and allow comparison with the previous three years. The same snapshot forms the basis of the Higher Education Student Early Statistics return (www.hefce.ac.uk/learning/datacoll/heses) and the Student Number Planning Exercise, but with some small criteria differences. These are explained on the website.

This supplement contains only high-level overviews of the student population. A complete set of tables and charts is on the website. Six different views are available:

- Timelines - trends of different categories, by division, over time
- One-year summary - high-level overview of one year's snapshot
- Detail table - complete details by programme/programme type for any single year
- Nationality/domicile details
- College populations over time - total student numbers for four years
- College details - table with filters that allow different views of the college populations in any given year.

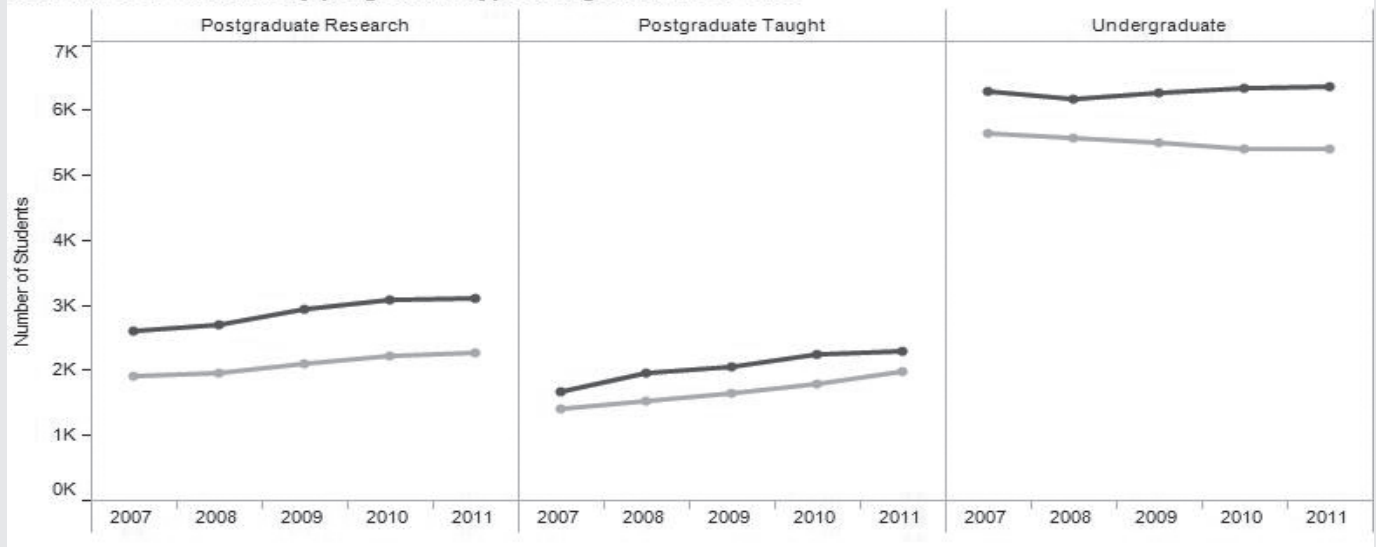

A complete set of terms, definitions, abbreviations and notes on exclusions/inclusions can also be found on the website.

The data is prepared by the Student Data Management and Analysis team. Questions concerning the content or format of these tables should be directed to sdma@admin.ox.ac.uk.
