Title of Programme/ Name of Regulation
Master of Science in Mathematics and the Foundations of Computer Science

Brief note about nature of change:
Change to submission method. This is to bring into line Examination Regulations with the Course Handbook to ensure there is no conflicting information between the two.

Location of change
In Examination Regulations 2019
https://examregs.admin.ox.ac.uk/Regulation?code=mosbcimafcompscie

Effective date
For students starting from 2020-21
For first examination from 2020-21

Detail of change
Amend citation references as follows (new text underlined, deleted text struck through)

12. Candidates shall follow for at least three terms a course of instruction in Mathematics and the Foundations of Computer Science.

15. Two typewritten copies of the dissertation must be submitted in accordance with guidance provided in the Course Handbook not later than noon on a date specified by the examiners which will normally be in early September in the year in which the examination is taken, to the M.Sc. Examiners (Mathematics and Foundations of Computer Science), c/o Examination Schools, High Street, Oxford. The examiners may
retain one copy of the dissertation of each candidate who passes the examination for deposit in an appropriate departmental library.

1.9 6. Each candidate in consultation with their supervisor shall notify the director of the course of their intention to offer a written assignment for a lecture course not later than the deadlines as specified in the Course Handbook. No candidate may offer more than four courses in one term. There will be a written assignment for each course. The topics in the assignment will be suggested by the relevant lecturer not later than the Friday of eighth week of the term during which the course is given. These topics will be sufficient to offer options appropriate to the course. The choice of topics will vary from year to year. Completed assignments must be delivered not later than noon on the date specified by the examiners in the Course Handbook, to the M.Sc. Examiners (Mathematics and Foundations of Computer Science), c/o Examination Schools, High Street, Oxford, together with a signed statement that the work offered for assessment is the candidate’s own.

1.12 Any candidate who has not satisfied the examiners in four courses, at least one of which shall have been taken from schedule II and at least one from Schedule B, by the beginning of the Trinity Term shall be deemed to have failed the degree course examination.

1.13 9. A candidate who fails the course examination will be permitted to retake it on one further occasion only. This resit attempt shall normally be taken at the next opportunity, but may be deferred once, i.e. it must be taken at one of the next two opportunities. In such a case the examiners will specify at the time of failure which of the assessed components of the course may or must be redone. No candidate who has satisfied the examiners in this examination any one of the examinations may enter again for the same examination.

Explanatory Notes

The proposed change to citations clarify the method of submission methods for a dissertation and bring the examination regulation in line with Course Handbooks.
