Congregation

9 October

¶ Members of Congregation are reminded that any two members may, not later than **noon on 1 October**, give notice in writing to the Registrar that they wish to oppose or amend the legislative proposal at (1), or the resolutions authorising the use of space at (2)–(5) below (see the note on the conduct of business in Congregation below). If no such notice has been given, and unless Council has declared otherwise or the meeting has been adjourned, the legislative proposal and the resolutions shall be declared carried, and the meeting may be cancelled.

(1) Voting on a Legislative Proposal: Statute XVI: Property, Contracts, and Trusts

Explanatory Note

The following legislative proposal amends the legislation relating to property, contracts and trusts, to clarify the University's Intellectual Property (IP) Policy in respect of IP generated by University students, and addresses concerns that the current provisions are too broad, by confirming the specific circumstances under which University ownership will be claimed.

WHEREAS it is expedient to amend Statute XVI concerning Property, Contracts and Trusts to limit the specific circumstances under which the University will claim ownership of Intellectual Property, THE UNIVERSITY ENACTS AS FOLLOWS.

In Statute XVI concerning University Property, Contracts and Trusts, delete section 5 and substitute (new text underlined, deleted text struck through):

'5. (1) The University claims ownership of all intellectual property specified in section 6 of this statute which is devised, made, or created:

(a) by persons employed by the University in the course of their employment;

(b) by student members only in the circumstances specified in sub-section (3) below in the course of or incidentally to their studies;

(c) by other persons engaged in study or research in the University who, as a condition of their being granted access to the University's premises or facilities, have agreed in writing that this Part shall apply to them; and

(d) by persons engaged by the University under contracts for services during the course of or incidentally to that engagement.

(2) The University's rights under sub-section (1) above in relation to any particular piece of intellectual property may be waived or modified by agreement in writing with the person concerned.

(3) The University does not claim ownership of any intellectual property which is devised, made, or created by University student members, unless that intellectual property was devised, made, or created:

(a) jointly with anyone else subject to Section 5 of this Part of Statute XVI;

(b) using University facilities or equipment (unless the terms of access for the facility or equipment provide otherwise);

(c) in circumstances where that intellectual property is subject to obligations (including obligations imposed by contracts or grants) that the University owes to a third party;

(d) using funding received from the University (unless the terms of that funding provide otherwise); or

(e) in the circumstances specified in Section 5(1)(a), (c) or (d) of this Part of Statute XVI.'

(2) Voting on a Resolution authorising an allocation of space for the Biochemistry Completion Phase

Explanatory Note

The Biochemistry building (Phase 1), located in the University's Science Area, was completed in 2008. The Medical Sciences and MPLS Divisions are now proposing to proceed with the Biochemistry Completion Phase and have secured approval to do so from Council. This development will address long-standing academic and estate

needs as identified in three-year plans from both the MSD and MPLS Divisions. The building will accommodate additional capacity for growth of new research groups, and will selectively incorporate cognate existing research groups from across the Departments of Biochemistry; Chemistry; Pharmacology; Engineering Science; Physics; and Physiology, Anatomy and Genetics.

Text of Resolution

That approximately 2,257 sqm adjacent to Biochemistry Phase I be allocated to the Medical Sciences and Mathematical, Physical and Life Sciences Divisions for the construction of a building of approximately 13,200 sqm gross internal area (GIA) to progress Biochemistry Completion Phase (building number 266) which will accommodate activity from both divisions.

(3) Voting on a Resolution authorising the allocation of the Systems and Electronic Resources Services building (SERS)

Explanatory Note

An allocation of the SERS building to the Bodleian Libraries until 19 January 2018 was approved by Congregation on 19 January 2016. The allocation and subsequent provision of space was required for two purposes: first, for the use of the Bodleian's book distributions service; and secondly, in order to accommodate the consolidation of Bodleian furniture, which was moved out of the Weston Library prior to its refurbishment, from both the SERS and Alden Press buildings. An extension to this allocation is now sought.

Text of Resolution

That the allocation of approximately 829 sqm on the ground floor of the Systems and Electronic Resources Services building (SERS) (building number 341) to the Bodleian Libraries be extended from 20 January 2018 until 30 September 2020 or until vacation is required for redevelopment of the site, if that is sooner.

(4) Voting on a Resolution authorising the allocation of space within the Rex Richards Building

Explanatory Note

The Rex Richards Building currently houses the Department of Materials' energy storage research laboratories, the Materials Modelling Laboratory and the MPLS Division Doctoral Training Centre. Following the approval of funding to create an expanded energy storage research centre in the Rex Richards Building, significant expansion of the energy storage research facilities currently housed in the building is needed. Additional laboratory and write-up space is required before the end of 2018, with further expansion needed during 2019–20 to secure other funding opportunities in this area.

Text of Resolution

That approximately 822 sqm in the Rex Richards Building (building number 271) be allocated to the Department of Materials for a period of five years following relocation of the MPLS Doctoral Training Centre.

(5) Voting on a Resolution authorising the allocation of 1–4 Keble Road

Explanatory Note

The Doctoral Training Centre (DTC) for the MPLS Division is currently housed within the Rex Richards building, which the division plans to refurbish in order to facilitate the expansion of the energy storage research facilities. An alternative permanent location is therefore required for the DTC for the start of Michaelmas term 2019 in order to allow the University to meet its obligations to students and funders.

Text of Resolution

That approximately 1,007 sqm net usable area (NUA) in 1–4 Keble Road (building number 170) be allocated to the MPLS Doctoral Training Centre and the Environmental Research Doctoral Training Partnership (NERC DTP) for a period of five years following completion of the refurbishment of the building.

UK Brain Bank for Autism and Related Developmental Research, JR

The developing brain is altered in autism but neuroscientists do not know how or why. Research is needed to understand the causes and biological basis of autism, to develop better interventions to improve the lives of those directly affected by it. Such critical research is hindered by the scarcity of donated human brain tissue. Control tissue, donated by people who do not have autism, is needed for comparison just as much as donations by people who do – and the NHS organ donor scheme does not include brain donation.

We particularly want younger people to consider making a pledge to donate their brain after death (the further the brain is from its inception, the more difficult it is to understand the process of its development, so we do not take donations from people over 65 not directly affected by autism). See <https://grand.tghn.org/autism-brain-bank> for information and to register as a donor.
