Arrangements for the meeting

Attendance and timings

The meeting will be held in the Sheldonian Theatre. Attendance at the meeting is open to members of Congregation and to nominated representatives of the Oxford University Student Union (Oxford SU) as agreed in advance by the Vice-Chancellor. Admittance to the theatre will be on the production of a valid University card and will be on a first-come, first-served basis (places will be reserved for scheduled speakers). The doors of the Sheldonian Theatre will open at 1.45pm and will remain open throughout the meeting except when voting is taking place. The Vice-Chancellor has decided that the wearing of gowns shall be optional on this occasion.

Advance notice by speakers

Members of Congregation who wish to speak are asked to indicate this intention by

emailing congregation.meeting@admin.ox.ac.uk by **noon on Monday, 14 May** at the latest. It would be helpful if those intending to speak would explain in no more than 25 words what issues they wish to cover to assist with determining the order in which speakers are called. Owing to time constraints, it may not be possible to call all those who wish to speak. On the other hand, if time permits, those who have not indicated in advance may have an opportunity to speak.

Further information will be published in the *Gazette* in advance of the meeting and on the Congregation website www.admin.ox.ac.uk/councilsec/governance/congregation in due course.

UK Brain Bank for Autism and Related Developmental Research, JR

The developing brain is altered in autism but neuroscientists do not know how or why. Research is needed to understand the

causes and biological basis of autism, to develop better interventions to improve the lives of those directly affected by it. Such critical research is hindered by the scarcity of donated human brain tissue. Control tissue, donated by people who do not have autism, is needed for comparison just as much as donations by people who do – and the NHS organ donor scheme does not include brain donation. We particularly want younger people to consider making a pledge to donate their brain after death (the further the brain is from its inception, the more difficult it is to understand the process of its development, so we do not take donations from people over 65 not directly affected by autism). See www.medsci.ox.ac.uk/news/understanding-autism-donate-your-brain-for-autism-research for information and to register as a donor.
