Notes

Electronic elections

Due to current COVID-19 restrictions, the elections on 10 June will be conducted electronically.

Nominations

Hard copies of nomination forms will not be processed. Completed nomination forms should be sent as an email attachment to the Elections Office (elections.office@admin.ox.ac.uk) by **4pm on 13 May**. At least one nomination in respect of each candidate must be made on an official nomination form (<https://governance.admin.ox.ac.uk/nomination-forms>). Please ensure that the nominators listed in section D are also copied into the email when the nomination form is submitted, as this will act as verification of the nomination in lieu of supplying original signatures.

General requirements and eligibility

All candidates are asked to note the general requirements which apply to all committee members, as set out in Council Regulations 14 of 2002 (General Regulations of Council for Committees (<https://governance.admin.ox.ac.uk/legislation/council-regulations-14-of-2002>)). Current members seeking re-election are also asked to check for specific restrictions on consecutive service. For further information, please see the eligibility (<https://governance.admin.ox.ac.uk/elections-by-congregation#collapse1580081>) and amendments to nominations (<https://governance.admin.ox.ac.uk/key-election-stages-and-procedures#collapse1577651>) sections within the Information about University elections (<https://governance.admin.ox.ac.uk/information-about-university-elections>) pages of the Elections website (<https://governance.admin.ox.ac.uk/elections>).

Candidate's statement

Candidates are invited to include with their nomination forms a written statement of no more than 250 words, setting out their reasons for standing and qualifications for the office being sought. In the event of a contested election, these statements will be published both online and in the *Gazette*.

Contested elections

In the event of a contested election, the successful candidates will be determined by an electronic ballot. A registration

email with further instructions will be sent to eligible voters on Wednesday 26 May, using the email addresses provided in the electronic register of Congregation (NB with few exceptions, notably clinical staff, this will be the work address ending 'ox.ac.uk'). Voters will need to respond to the email to confirm their registration and to receive links to the candidate statements and to vote. Candidates' statements will also be published in the *Gazette* dated 27 May. Voters may wish to read these statements before completing their electronic vote. The voting period will close at 4pm on 10 June.

Uncontested elections

If the number of nominations received by the closing date is no more than sufficient to fill the vacancies, the candidates nominated shall be deemed to be duly elected as of the close of the nomination period on Thursday, 13 May. When required, places will be allocated according to academic standing, as defined in Council Regulations 22 of 2002, Part 2: Academic Precedence and Standing (<https://governance.admin.ox.ac.uk/legislation/council-regulations-22-of-2002>). If the number of nominations received by the closing date is less than sufficient to fill the vacancies, those candidates nominated will be deemed elected unopposed, and the remaining vacancies will lapse, in which case, in accordance with the regulations, the places must remain vacant until appointments are made jointly by the Vice-Chancellor and Proctors.

Period of office

All vacancies are from the beginning of MT 2021 unless otherwise stated. In accordance with Congregation Regulations 2 of 2002, in any election where vacancies are to be filled for periods of different length, the elected candidates shall hold office so that the tenure of those who receive more votes shall be longer than that of those who receive fewer votes; but if the election is uncontested or if two candidates receive the same number of votes, the candidate senior in academic standing shall hold office for the longer period.

UK Brain Bank for Autism and Related Developmental Research, JR. The developing brain is altered in autism but neuroscientists do not know how or why. Research is needed to understand the causes and biological basis of autism, to develop better interventions to improve the lives of those directly affected by it. Such critical research is hindered by the scarcity of donated human brain tissue. Control tissue, donated by people who do not have autism, is needed for comparison just as much as donations by people who do - and the NHS organ donor scheme does not include brain donation. We particularly want younger people to consider making a pledge to donate their brain after death (the further the brain is from its inception, the more difficult it is to understand the process of its development, so we do not take donations from people over 65 not directly affected by autism). See <https://grand.tghn.org/autism-brain-bank> for information and to register as a donor.
